PROTECT YOUR MEMBERS COMPLY WITH REGULATORS

The National Credit Union Administration (NCUA) requires Business Continuity Planning for Credit Unions. The FFIEC has recently updated its guidance to Financial Institutions for the first time since 2003. The update includes lessons learned from recent disasters and updated guidance on many other aspects of a fully compliant BCP Plan. **FISolv** is devoted to providing financial institutions with Business Continuity and Disaster Recovery services. Our pledge is to ensure that the financial institution has a fully functional plan that follows FFIEC Guidelines, is compliant with regulators and safeguards members.

FISolv offers a wide range of Business Continuity Services. **FISolv's** foundation is creating fully functional Business Continuity Plans. A **FISolv** BCP is a "living document", the foundation for a CU to survive the unexpected. **FISolv** develops, trains, tests and maintains BCPs. **FISolv Best Practices** prepare the Credit Union for examination and provide the Credit Union Members, Community, Board and Employees the peace of mind that the Credit Union is prepared for a real life occurrence. **FISolv** is dedicated to being the Credit Union's first and trusted source in Business Continuity and Disaster Recovery services.
